**APPENDIX B-1
CRESTON WAGE DC PENSION PLAN**

LABATT DEFINED CONTRIBUTION PENSION PLAN FOR EMPLOYEES ACHIEVING SENIORITY ON OF
AFTER JANUARY 1, 2009

The company will introduce a contributory Defined Contribution (DC) Pension Plan.

The design principle for this Defined Contribution pension plan is:

1. Membership

a) A full-time wage employee who achieves seniority on or after January 1, 2009 shall become a member on the first day of the month following 3 month waiting period.

b) Future Full-Time employee (current and new) to be eligible with Sunlife or equivalent when the employee has worked 700 hours in a calendar year. The employee will then become eligible to participate at the beginning of the following calendar year.

2. Pensionable Earnings

The member's basic hourly rate of earnings up to a maximum of 40 hours per week (or 42 hours for employees working on modified work week) or 2080 hours per year for services rendered to the company, and excluding overtime, shift premium.

3. Employee Contributions

Eligible members are required to make contributions to the plan.

Member contributions to the plan will be made via payroll deductions during such payroll period.

Full Time Wage Employee

i. Mandatory = 7% of base earnings up to a maximum of 2080 hours per year.

b) **Future Full-time employee (FFE)**

i. Mandatory contribution of 2% of regular salary with company match

ii. Employee to be able to contribute 3% above mandatory contribution with no company match.

4. Company Contributions

In respect of each member's contributions, the applicable Participating Company will contribute each month an amount equal to the percentage of the contributions made during the month by the member, up to a maximum of member's pensionable earnings.

5. Termination of Member & Company Contributions

Pension contributions shall cease upon the earlier of:

1. the member's termination of employment
2. the member's retirement date
3. the member's death
4. the date of discontinuance of the plan

6. Pension Remittances

All contributions shall be paid into the Fund within the time limits specified in the Pension Law.

7. Leave of Absence

A member who is on a period of leave during which the member does not have earnings and where legislation applicable to the member requires the member be permitted to make contributions to the plan or the company approves such leave and specifically permits the member to make contributions to the plan, may make the contributions as if he/she had been in active employment. The maximum length of leave of absence shall be based on the terms of the collective agreement or applicable legislation.

8. Vesting

The member shall be 100% vested after 2 years of plan membership.

9. Investment Fund Selection

The investment fund mix shall be the same as the Salary Defined Contribution Plan. The Labatt Pension Investment Committee reviews the performance of all Investment Managers and the individual funds on a quarterly basis and makes appropriate changes.

In the event an employee does not specify investment fund instructions via the Sunlife website the entire balance will be deposited into the Money Market Fund, as the default fund. If contributions are made to the default fund, it is the members' responsibility to re-allocate any such balances to the desired fund(s) by contacting Sunlife.

10. Change in Investments Portfolio

The member has the option to determine his percentage of contributions made into the various investment funds. The member can make changes for past and future investments that will take effect the first day of the month next following the date the member notifies the company of the change.

11. Recordkeeper

Sun Life Financial

12. Member Personal Statements

Each member shall receive a personal Sunlife Statement of Account detailing the balances in their account, investment funds, fund performance, investment management fees, etc. on a semiannual basis – June 30 and Dec 31 of each calendar year.

VARIABLE COMPENSATION (PERFORMANCE BONUS)

Principles for the Variable Compensation Program:

This plan applies to full-time and future full-time, active employees only.

The performance bonus will be calculated based on the base hourly rate multiplied by the active hours worked to a maximum 2080 hours in a calendar year. For greater clarity, active hours worked does not include hours lost due to layoff, WI, WCB, LTD, sickness, or leave of absence.

Payout will be made in the form of a one-time annual lump sum coincident with payment of the salaried employee performance bonus which is presently paid in April of the following year and will be subject to normal statutory deductions.

This variable component will not be included in the base hourly rate for any calculation.

The annual amount of the percentage bonus opportunity will be as per schedule in the article 5.

For greater clarity, the following will apply for partial years of work:

- | | | | |
|-----|----------------|--------------------------|---|
| (a) | Termination | ☐ | not eligible for any payment |
| (b) | Resignation | ☐ | not eligible for payment |
| (c) | Retirement | ☐ | pro-rated based on number of hours worked (including vacation) within the calendar year |
| (d) | Layoff/closure | ☐ | pro-rated based on hours worked within the calendar year |

How the calculation works:

Management will determine a list of common targets in each calendar year.

APPENDIX C
LETTERS OF UNDERSTANDING

1. Employee Christmas Gift Options

During the negotiation for the renewal of the collective agreement, the Union and the Company have agreed to renew this letter of understanding originally dated October 31, 2008 outside the collective agreement.

In the past, the company has purchased small gifts for its employees at Christmas time. The company would like to propose the elimination of the employee gift program in order to fund a donation to a recognized Food Bank in Creston, BC. To fund this donation, the company is prepared to provide \$2000.00 and allow the union to make the charity recommendation on behalf of all Columbia Brewery employees.

This letter expires April 30, 2027

Rev3 May 2, 2023

2. FFE Eligibility for Variable Compensation Program

As agreed in the original letter dated April 22, 2010, new FFEs will not be eligible to participate in the variable compensation program until they have completed their probationary period, as defined in Article 14 of the collective agreement, which is 1440 hours.

3. Resolution to Maintenance Grievances received Dec 14th 2005

The company recognizes that there are often cost benefits associated with having our internal trades perform work that is associated with capital projects. As a company, we also need to have work completed in a timely manor so as not to hinder the effective operation of the business. Therefore, respecting clause 2.1 of the collective agreement, there will be a discussion with a trades person, assigned by the union, who will represent the trades group as a whole to determine if there is a willingness to “take on” the installation of equipment. During this discussion, the company will define the following parameters.

- 1) Timing of the project
- 2) Scope of project
- 3) Available resource time during the week (only if all regular maintenance activities are covered at the discretion of the applicable maintenance manager(s))
- 4) Cost allocations (at the discretion of management)

The assigned trades person will determine if there is a willingness to “take on” the capital project by considering all factors listed above. If there is a willingness, the project will be completed by the internal trades whom assume full responsibility to meet the business requirements. In the event the trades are not available, management will seek competent help as defined by 2.2 of the collective agreement. The competent help that is brought in install the equipment will be directed by management (locally or from National Office Engineering) as required to complete all aspects of the project without the requirement to pole for availability of internal labour. The company recognizes that there is benefit to include our trades people in the commissioning of a project to increase knowledge but this is at managements discretion and based on availability of the trades. To be clear, in a case like this, they are being assigned work under the guise of maintenance not forming part of the outside competent help contract.

As well, management will continue to set up and maintain a “weekend availability for work sign up system” that will afford trades the opportunity to indicate their availability for weekend work. This system will allow sign up for several weeks in advance. Work that will be performed on the upcoming weekend is clearly identified during a management meeting which occurs at 10AM Thursday each week. Therefore, employees that are making themselves available for overtime work

on the following weekend must have indicated their availability by 9AM Thursday. If an employee has not signed the posting, management will assume they are not available and will proceed to the next senior most employee on the list. Management will notify employees by noon on Thursday if they will be required or not to support the planned maintenance activities (either verbally or a note on the signup sheet). If there is a change to the requirements, Management will notify employees as soon as practical (for example, when more work is identified, management will refer back to the original list and ask the employees who have indicated their willingness if they are still available). If an employee has indicated they are available, management will schedule that employee to work and this would be considered a regularly scheduled shift.

This letter expires April 30, 2027
Rev3 May 2, 2023

4. Negotiated Agreements related to the Columbia Brewery Pension Retiree Full Benefit Purchase

Employees who elect to retire early are entitled to accept the retired medical plan or maintain their active medical plan and dental benefit coverage until age 65. The employee must pay the difference between the retiree benefit plan (which is paid for by the employer) and the active employee benefit plan. The Company will advise employees of their options in this regard. The premiums are adjusted annually, so the employees' amount owed will be reassessed on an annual basis until age 65.

This letter expires April 30, 2027
Rev3 May 2, 2023

5. Designated Chief Engineer

This letter will outline the terms and conditions governing, in the absence of a staff chief engineer, the temporary designation of a chief engineer from the bargaining unit in accordance with the Boiler and Pressure Vessel Safety Act and Regulations.

- A. The company will post the vacancy, as necessary and the successful applicant will be selected based on qualifications and experience. If qualifications and experience are equal, seniority shall prevail.
- B. The temporary designated chief engineer, regardless of full time or relief posting, will be scheduled as though they are the relief for the on-shift engineer. When not required to operate as a relief engineer, the temporary designated chief engineer will be scheduled on days to perform all duties required of the chief.
- C. The designated chief engineer will be responsible for the maintenance and operation of all pressure vessels, boilers, CO2 collection systems, refrigeration equipment, power piping and all ancillary equipment.
- D. The designated chief engineer will provide work direction as required to other engineers in accordance with the Act and Regulations.
- E. The designated chief engineer shall ensure that the plant is operated in compliance with the Act and Regulations.
- F. The designated chief engineer shall maintain preventive maintenance records of all powerhouse equipment and will issue work orders on scheduled and other repairs as required.
- G. The designated chief engineer shall order parts and materials as required for construction and maintenance in the powerhouse within the guidelines of the Act and Regulations.
- H. The designated chief engineer shall be compensated an additional \$2.00 per hour above the 3rd class engineer wage scheduled outlined in the Collective Agreement.
- I. In the absence of the designated chief engineer, a 3rd class engineer who possesses the appropriate qualifications under the Act, may be appointed to assume all the duties of the

designated chief engineer in a relief capacity. A 3rd class engineer acting in a relief capacity shall receive the wage schedule outlined in "H" above.
