The Company will provide in-house training on soft maintenance for all operators in all departments. As examples, soft maintenance may include; set-ups, change-overs, some component replacement, lubrication, preventative maintenance inspection and adjustments. It is understood that trades personnel will assist in the development, instruction, certification, and continuing support of Soft Maintenance skills. Soft Maintenance will be part of all operators' responsibility.

Employees who successfully complete in-house training and demonstrate with a practical test, the new skills, will be certified as qualified "Soft Maintenance" Operators. A training record will be maintained where the trainer(s) and trainee will note and acknowledge the nature of the training and certification.

In the event an employee is unsuccessful in obtaining his/her certification after the initial training, the Company, Union and individual employee will meet to develop a specific training plan. If the developed training plan is unsuccessful in assisting the employee in achieving his/her certification, the Company and Union will agree on the next steps with consultation with the employee to either provide more training or reassignment of the employee to another job in the packaging department.

It is understood that the Company may schedule Operators who hold their Soft Maintenance certification to assist with Maintenance during scheduled downtime work of his/her equipment.

24.02 Operational Flexibility

An employee may be assigned to do other duties during his shift, so long as he/she is capable and available to do the work, and additional overtime in the department is not incurred as a result of the assignment. This provision is not meant to create job loss but rather to operate the Brewery more efficiently and cost effectively. The intent of this Article is:

- (a) to allow qualified personnel to perform "non-regular" job duties during his/her shift. For example, a Packaging Employee who is capable can operate a forklift to assist in clean up or production, or a maintenance employee could receive parcels on the off shifts or Saturday;
- (b) to eliminate unnecessary overtime connected with "calling in" an employee from a specific department when a qualified employee is already onsite and available.

(b) Special Early Retirement

- (i.) A member retiring after having attained age 60 on or after January 1, 2018 with at least 30 years of credited service is entitled to an immediate accrued pension equal to the amount of accrued pension to his credit for service to date of early retirement, without reduction for the earlier date of retirement.

This pension will be temporarily supplemented by an amount necessary to provide a monthly pension of \$3,443, from the Company Plan payable until the member would have first become eligible to receive an unreduced Canada Pension Plan Retirement Benefits (age 65).

- (ii.) A member retiring after having attained age 60 on or after January 1, 2025 with at least 30 years of credited service is entitled to an immediate accrued pension equal to the amount of accrued pension to his credit for service to date of early retirement, without reduction for the earlier date of retirement.

This pension will be temporarily supplemented by an amount necessary to provide a monthly pension of \$3,453, from the Company Plan payable

until the member would have first become eligible to receive an unreduced Canada Pension Plan Retirement Benefits (age 65).

Thereafter, the supplement shall be recalculated as the amount required to be added to the member's accrued pension and the full unreduced Canada Pension Plan Retirement Benefits determined at the date of his retirement to produce a monthly pension of \$3,791; which supplement shall become his lifetime supplement. In addition to the recalculated lifetime supplement, a member who retires before December 31, 2025 will be paid a further supplement, if necessary, to produce a total pension from the Company Plan equal to the pension that would be payable if the member were then retiring at normal retirement, based on the normal retirement minimum pension and full unreduced Canada Pension Plan Retirement Benefit both determined as of that date, his accrued pension including any escalation thereof and his related credited service. This further supplement shall then be added to and form part of the member's lifetime supplement.

(c) 85 Point Retirement

A member retiring after having attained age 55 and whose age plus years of credited service total 85 or more (but prior to having qualified for Special Early Retirement) is entitled to an immediate accrued pension equal to the amount of accrued vested pension to his credit for service to date of early retirement.

In addition, such member shall be entitled to a lifetime supplement calculated as if the member had attained age 65 on his date of retirement but using his current unreduced vested accrued pension and his related credited service, the full unreduced Canada Pension Plan Retirement Benefit and the normal retirement minimum Pension all determined as of the member's actual date of retirement.

(d) 85 Point Early Retirement Window

A member retiring on or after January 1, 2026, but before December 31, 2029, after having obtained age 55 with 85 points (service and age combined) but prior to having qualified for Special Early Retirement under section 6 (b) above is entitled to an additional supplement of \$300 per month, payable from general revenues until the age of 65.

(e) Other Early Retirement

A member retiring on or after January 1, 2026 and after having attained age 55, with two years of credited service but prior to having qualified for Special Early Retirement is entitled to an immediate accrued pension equal to the amount of accrued vested pension to his credit for service to date of early retirement reduced by a factor of one-third (1/3) percent for each month he is under age 65 when his pension commences.

In addition, such member shall be entitled to a lifetime supplement calculated as if the member had attained age 65 on his date of retirement but using his current unreduced vested accrued pension and his related

credited service, the full unreduced Canada Pension Plan Retirement Benefit and the normal retirement minimum Pension all determined as of the member's actual date of retirement.

The lifetime supplement so calculated will then also be reduced by a factor of one third (1/3) percent for each month the member is under age 65 when his pension commences.

7. Termination of Employment

A member's accrued pension and lifetime supplement shall completely vest upon the completion of two (2) years of credited service.

The pension benefits accrued for service from January 1, 1974 will be paid as a deferred pension commencing at normal retirement date, or;

Instead of the deferred pension entitlement, the member may elect to transfer the commuted value of his pension to a Registered Retirement Savings Plan. Any amount so transferred may be subject to Provincial Locking-in requirements.

8. Joint and Survivor Pension

A member with an eligible spouse who takes Normal Retirement, Special Early Retirement, 85 Point Retirement, or other Early Retirement on or after January 1, 2026, shall receive a joint and survivor pension unless the persons entitled to the joint and survivor pension deliver to the Plan Administrator a written waiver of such entitlement in the prescribed form within the period of twelve months immediately preceding the commencement of payment of the pension benefit.

Unless waived, the member's accrued pension and lifetime supplement, if any, shall be reduced by 10% during his lifetime. Upon his death, his eligible surviving spouse shall receive a pension of 60% of the member's reduced accrued pension and lifetime supplement, if any, (subject to actuarial reduction if such spouse is more than 10 years younger than the member).

9. Death Before Retirement

If a member dies after having met the eligibility requirements (Age 55 and 10 Years of Service) for a pre-retirement spousal pension, his spouse shall receive an immediate pension equal to the amount payable had the member retired on the date of his death with the Joint and Survivor Pension described in item 8 above, plus the same percentage of his lifetime supplement. The lifetime supplement will be calculated as if the member had attained age 65 on his date of death, but using his current unreduced accrued pension and his related credited service, the full unreduced Canada Pension Plan retirement benefit and the normal retirement minimum pension all determined as of the member's actual date of death.

If a member should die before his pension commences and does not have a spouse who is entitled to a pension as explained in the preceding paragraphs, a death benefit shall be paid to the member's beneficiary equal to the lump sum

amount described in Item 7 above as if he had terminated on the date of his death.

10. Escalation of Pension after Retirement only for service accrued before December 31, 2011 (in accordance with definitions outlined below).

If a member retires from the service of the Company pursuant to any of the types of retirement listed above, his pension will be reviewed from January 1st of each year which follows his retirement date.

The accrued basic pension and lifetime supplement accrued before December 31, 2011, if any, shall be increased on each January 1st following his retirement by the percentage increase in the Consumer Price Index for the preceding year, with a maximum escalation of 2%. Any spousal pension will also be escalated applying the same formula, with the first increase occurring on the January 1st following death (in accordance with definitions outlined below).

Definitions:

- (a) For those employees with 30 years or more of service on December 31, 2011, they have reached full accrued service and if escalation is identified as outlined above when they retire those employees will receive the full escalation identified for that year up to a maximum of 2%.

Example: An employee has 33 years of accrued service effective December 31, 2011 and retires on June 1, 2016, in accordance with the rules outlined in Appendix "B". If escalation is identified, after his retirement, at 1.5% in a particular year, this employee will receive 1.5% escalation for that year ($30 / 30 \times 1.5\% = 1.5\%$).

- (b) For those employees who already have 15 years, but less than 30, years of accrued service for pension on December 31, 2011, the accrued time for escalation will stop effective December 31, 2011. When they retire and escalation is identified, as outlined above, they will receive a pro-rated amount of the escalation by taking their years of accrued service effective December 31, 2011 divided by 30 years times the escalation amount identified for that year.

Example 1- An employee has 25 years of accrued service effective December 31, 2011 and retires on June 1, 2016, in accordance with the rules outlined in Appendix "B". If escalation is identified, after his retirement, at 1.5% in a particular year, this employee will receive 1.25% ($25 / 30 \times 1.5\% = 1.25\%$).

Example 2- An employee has 15 years of accrued services effective December 31, 2011 and retires on December 1 2016, if escalation is identified, after his retirement, at 1,5% in a particular year, this employee will receive 1.125% ($15/20 \times 1.5\% = 1.125\%$)

- (c) For those employees with less than 15 years of accrued service effective December 31, 2011, they will continue to accrue services for indexation (escalation of pension) until they reach 15 years of accrued service for

indexation or the expiry of this Collective Agreement on December 31, 2018, whichever comes first.

Example 1- An employee has 13 years of accrued service effective December 31, 2011 and retires on December 31, 2028, in accordance with the rules outlined in Appendix "B". If escalation is identified, after his retirement, at 1.5% in a particular year, this employee will receive 0.75% ($15 / 30 \times 1.5\% = 0.75\%$).

Example 2- An employee has 13 years of accrued service effective December 31, 2018 and retires on December 31, 2035, in accordance with the rules outlined in Appendix "B". If escalation is identified, after his retirement, at 1.5% in a particular year, this employee will receive -.65% ($13 / 30 \times 1.5\% = 0.65\%$).

11. Previous Plan Benefits

Benefits accrued by a member of a previous Oland Breweries Limited Pension Plan have been determined and fixed to the credit of the member for service to December 31, 1973 and will be payable in accordance with the provisions of that plan except:

- (b) On other early retirement described in Item 6 above, the contributory pension accrued for service to December 31, 1973 will be reduced by one-third (1/3) percent for each month that the member is under age sixty-five (65) when pension commences.

12. Disability Retirement (Before Age 65)

As long as a member is eligible to receive disability benefits under the Group Insurance Plan, he will receive service and basic pension credits under the Retirement Plan and will not be retired. However, if a member becomes partially disabled and does not qualify for insurance benefits he may qualify for Disability Retirement. Retirement under this provision requires that:

- (a) He is at least age 50 and has completed 10 years of service, and
- (b) He is certified to be partially disabled and thereby prevented from performing any work available with the Company, and
- (c) It is mutually agreed by the member and by the Company that he be retired under the Disability Retirement provision.

On retirement under the disability provision a member is entitled to an immediate pension equal to the amount of basic pension to his credit for service to his date of disability retirement without reduction for his earlier age of retirement. In addition, until he qualifies for the earlier of receipt of Canada Pension Plan disability benefits or the attainment of age 65, he will receive a monthly disability supplement equal to \$14.00 multiplied by the number of years of credited service up to 30 years.

At age 65, he will then receive a lifetime supplement calculated as if he had reached age 65 on the date of his retirement, but using his current unreduced

vested accrued basic pension and his related credited service, the full unreduced Canada Pension Plan retirement benefit and the Normal Retirement minimum pension determined as at his actual date of retirement.

The employee would then be selected as any other employee. An employee who does not make such a request to work, will not be charged for a failure to accept the overtime opportunity.
 - (c) An employee returning from vacation will only be entitled to be selected for an overtime opportunity which falls on his/her first schedule work day following their vacation. The training, conference, or plant visit time may also be irregular, longer or shorter than 8 hours per day, or involve work activity split into different parts of the day. Again, the employee will receive 8 hours per day or 40 hours per week of straight time pay for these occasions.

All reasonable expenditures for which an employee will expect reimbursement must be accompanied by receipts. Please see your manager for information and assistance in completing expense forms.

Employees may receive cash advances to cover anticipated expenses. Any travel advances will be paid prior to your trip, and you will be responsible for all monies advanced. Your AD&D Insurance includes coverage for injury sustained while riding as a passenger in, or on boarding or alighting from, or being struck by a licensed aircraft. Benefits are not payable for any loss caused by suicide or self-destruction, war or service in the armed forces of any country, or injury arising out of or in the course of any occupation or employment for wage or profit.

In the event of your death, the AD&D insurance benefit will be paid to the beneficiary you have named. This benefit is payable in addition to your life insurance. All other benefits under the AD&D insurance are payable to the insured person.

Your AD&D insurance will be cancelled as of the date you retire or terminate service with the Company.

5. WEEKLY INDEMNITY BENEFIT

If you become totally disabled and are prevented from working due to a non-occupational accident or a sickness not covered by Worker's Compensation, you will receive Weekly Indemnity benefits provided you are under the care of a licensed physician.

If disability commences during a period of layoff, you will be eligible for Weekly Indemnity benefits from the date you are recalled to work only if you have 10 or more years of seniority and you are recalled within a period of two weeks from the date of layoff and you are totally disabled on that date.

The amount of your Weekly Indemnity benefit is 70% of your basic weekly earnings rate as of the date disability commences. When a general change in wage rates takes effect under the terms of the Labor agreement, the amount of your Weekly Indemnity benefit from the effective date of such change will be 70% of the basic weekly earnings rate to which you would be entitled if you were at work. The benefit payment is based on a 7-day week. For each day of absence for which a benefit is payable, you will

receive one-seventh of the weekly benefit. Benefits are payable from the first day of absence of disability due to accident, or from the fourth day of disability due to illness.

Payments continue as long as you are disabled, up to a maximum of 26 weeks for each period of disability. (Refer to Long Term Disability insurance for benefits payable if disability continues for more than 26 weeks.)

A disability resulting from the same cause as a previous disability will be treated as a continuation of the disability unless you have completely recovered and have been back at work for at least 14 days.

Your Weekly Indemnity insurance will be cancelled as of the date you retire or terminate service with the Company and your Weekly Indemnity benefits will cease as of that date.

6. LONG TERM DISABILITY BENEFIT

Long Term Disability (LTD) benefits become payable only after you have received Weekly Indemnity benefits for the maximum period, or when you have received Worker's Compensation payments for a continuous period of 26 weeks. Your LTD benefit will be payable at the end of each month at 66 2/3% of your basic monthly earnings rate as of the date your LTD benefit commences. For example, if your hourly earnings rate in the 26th week after you become disabled is \$26.45 per hour:

- (a) Your Weekly earnings rate is $40 \times \$26.45 = \$1,058.00$
- (b) Equivalent monthly earnings rate is $(\$1,058 \times 52 \text{ weeks}) \text{ divided by } 12 = \$4,584.66$
- (c) Monthly LTD benefit is $66 \frac{2}{3}\% \text{ of } \$4,584.66 = \$3,056.13$

Your LTD benefit payments will be reduced by any disability payments you are eligible to receive from Worker's Compensation, the Canada Pension Plan, or other government source.

In order to qualify for LTD benefits, you must be under the continuing care of a licensed physician, and during the first 2 years of LTD benefits, be unable to perform the duties of your normal occupation or any other job available in the bargaining unit; thereafter you must be unable to engage in any gainful occupation for any employer for which you are reasonably qualified by training, education or experience. If you are again disabled due to the same or a related cause, your absence will be treated as a continuation of disability under the LTD benefit unless you have been back at work for at least six (6) months.

Payment of benefits will require submission of such appropriate medical evidence as may be requested by the insurer from time to time. You will be entitled to benefits during the continuation of disability as defined above except that in no event will benefits be paid beyond your normal retirement date. If you should elect to retire early, LTD benefits will cease as of your date of early retirement. No benefits will be payable for absences due to disabilities caused by self-inflicted injuries while sane or insane, insurrection, war, service in the armed forces of any country, or participation in a riot, or during disabilities resulting from working for another employer.

If you engage in rehabilitative employment, your LTD benefits will continue for up to 24 months but will be reduced by 75% of what you earn from rehabilitative employment. For example, if you are receiving a monthly LTD benefit of \$3,056.13 and you earn \$800 in rehabilitative employment:

Monthly LTD Benefit	\$3,056.13
Subtract 75% of \$800	600.00
LTD benefit during rehabilitation	2456.13
Earnings from rehabilitative employment	800.00
Monthly income during rehabilitation	\$3,256.13

Provided your employment with the Company has not been terminated, while you are in receipt of LTD benefits you will continue to be covered for all other group insurance benefits.

Your LTD insurance will be cancelled as of the date you retire or terminate service with the company.

NOTE: You may not receive wages or other allowances such as Holiday pay, vacation pay, weekly indemnity, long term disability, Worker's Compensation or similar benefits from more than once source for the same day or part day.

10. DENTAL CARE BENEFITS

Dental Care Benefit

Dental Care benefits are provided for you and your eligible dependents subject to the limitations and exclusions described below.

Eligible services are all reasonable and customary dental services which are recommended as necessary and performed by a qualified dentist or physician and for which treatment Plan has been submitted to and approved by the insurer before the services are rendered. The filing of a Treatment Plan is not required if the total cost of the proposed work is less than \$500.00 or if treatment is rendered in emergency conditions. Eligible dental services are classified under three major categories:

- 1) Basic Services - examination and cleaning of teeth once in any 9-month period, extractions, fillings and other necessary treatment for the relief of dental pain.
- 2) Restorative Services - crowns and inlays, bridge work, dentures, root canal therapy (endodontics), and the treatment of tissues and bones supporting the teeth (periodontics).
- 3) Orthodontia - proper fitting of natural teeth and prevention or correction of irregularities of the teeth.

How to Claim for Dental Care Benefit

Claims must be submitted by the end of the calendar year following the year in which the expense was incurred except that proof of claim must be submitted within ninety (90) days of the date on which your insurance is cancelled for any reason. A separate claim form must be filled out for each member of your family for whom you are making claim. The dentist's statement on this form, or any bills supporting your claim, must show the patient's name, dates and nature of the treatment and the charge. If the total cost associated with proposed dental work is \$500.00 or more, a Treatment Plan must be submitted to the insurer as explained in the Dental Care Benefit explanation

above. You should have your dentist complete a claim form setting out details as to the proposed treatment and cost.

Give this form to your Human Resources or Health Services Department to forward for review by the insurance company. You will then be advised as to the charges, or portion thereof, which the insurer considers eligible for benefits. Upon completion of the dental treatment, you again submit a claim to receive payment of the approved benefits.

Failure to see your dentist promptly or to submit your claim together with the dentist's report or other itemized statements within the above time limits will result in the rejection of your claim.

You will also be reimbursed for 50% of the cost of Restorative Services and 50% of the cost of Orthodontia to a life-time maximum benefit of \$6,000 for each insured person for Restorative Services and Orthodontia combined. An annual reinstatement of up to \$700 will be provided at the beginning of each calendar year, if required, to restore the lifetime maximum to the level of \$6,000. At no time will the maximum exceed the original amount. Benefits will be paid on the basis of the lesser of the actual fee charged or the amount stated in the current dental Association Schedule of Fees in the province in which you reside. If optional procedures are possible, benefits will be payable in accordance with the procedure involving the smallest fee.

Expenses incurred for the replacement of dentures are eligible for benefits, except if the replacement is for a denture for which benefits were payable under this plan. Benefits for the replacement will be payable only if at least 3 years have elapsed since the placement or replacement for which benefits were paid.

In addition, benefits are payable for rebasing, relining or repairing of dentures. Benefits will not be paid for the replacement of dentures which have been lost, misplaced or stolen.

11. HOW TO CLAIM

When you or any of your dependents are entitled to receive insured benefits, you should obtain the necessary claim forms from your Human Resources or Medical Department. When you have completed the employee's portion of the claim form, you should have your physician or dentist complete his section. Then give the completed form to your Human Resources or Medical Department.

In order to qualify for payment of benefits, claims must be submitted within the time limit set out below:

In case of accident, you must see the doctor no later than the day following the accident in order to qualify for benefits from the first day; otherwise, benefits will be payable as if the disability is due to illness. Diagnosis and prescription by telephone only does not constitute a "visit" for this purpose.
- (b) Long Term Disability Benefit - Claims must be filed within 6 months following the date from which LTD benefits become payable but the earlier the better in order to avoid any delay in commencement of your LTD benefits.
- (c) Supplementary Hospital Benefit - You will be issued a Manulife Membership Certificate. Present this certificate to the member hospital of your choice. Manulife will make payment directly to the hospital.

service and expenses. It is suggested that such claims not be submitted until the total bills exceed \$10.00.

- (f) Dental Care Benefit - Claim must be submitted by the end of the calendar year following the year in which the expense was incurred except that proof of claim must be submitted within 90 days of the date on which your insurance is cancelled for any reason. A separate claim form must be filled out for each member of your family for whom you are making claim. The dentist's statement on this form, or any bills supporting your claim, must show the patient's name, dates and nature of the treatment and the charge.

If the total cost associated with the proposed dental work is \$500 or more, a Treatment Plan must be submitted to the insurer as explained in Section 10. You should have your dentist complete a claim form setting out details as to the proposed treatment and cost and give this to your Medical or Human Resources Department to forward for review by the insurance company. You will then be advised as to the charges, or portion thereof, which the insurer considers eligible for benefits. Upon completion of the dental treatment, you again submit a claim to receive payment of the approved benefits.

Failure to see your doctor promptly or to submit your claim together with the doctor's or dentist's report or other itemized statements within the above time limits, will result in the rejection of your claim.

The major medical benefits for which you are covered after retirement will be continued to your spouse on your death.

Please see your Human Resources Department for any further information.
